

## Java

```
class Solution {  
    public long maxNumber(long n) {  
  
    }  
}
```

---

## JavaScript

```
/**  
 * @param {number} n  
 * @return {number}  
 */  
var maxNumber = function(n) {  
  
};
```

---

## TypeScript

```
function maxNumber(n: number): number {  
  
};
```

---

## C++

```
class Solution {  
public:
```

```
    long long maxNumber(long long n) {  
    }  
};  
-----
```

## C#

```
public class Solution {  
    public long MaxNumber(long n) {  
    }  
}
```

## Kotlin

```
class Solution {  
    fun maxNumber(n: Long): Long {  
    }  
}
```

## Go

```
func maxNumber(n int64) int64 {  
  
}
```
